

NHV Group – B1.3 and B2 H175 Engineer

Are you an experienced licensed engineer on H175 with a passion for safety and efficiency? Join our team to execute both scheduled and unscheduled crew change flights and Helicopter Hoist Operations (HHO) flights.

The helicopter B1.3 or B2 Engineer plays a critical role ensuring the helicopter is ready and fit for flight and is in an airworthy condition. Performing all required scheduled and unscheduled line maintenance. Safety management and good communication play a crucial role.

You work in a small team of engineers, pilots and hoist operators following the helicopter to different operational locations for crew changes and hoisting on wind farms. You report functionally to the Maintenance Lead who oversees the maintenance and hierarchically to the Base Manager in Esbjerg. You will follow the aircraft in bases in Denmark, the Netherlands, Germany, Poland, Belgium or any other European country the customer requests.

Responsibilities and Main Results Areas

Line Maintenance

- Ensure that all maintenance tasks carried out to helicopters meet the standard of the BCAA/EASA and MOE instructions
- Work on aircraft and aircraft components as per Work Order, whilst respecting any restriction applicable.
- Ensure all safety regulations are followed
- Report any safety hazard and mandatory reportable occurrence via the NHV occurrence reporting system.
- Ensure correct following and performing of all maintenance instructions as detailed in the approved maintenance data and ensure correct following of all MOE procedures.
- Report if any procedure is inaccurate, incomplete or ambiguous.
- Record all performed maintenance in the work file and ensure all tasks are properly certified.
- Raise non-routine tasks or defect entries in the system for all unscheduled findings.
- Ensure Independent Inspections are performed on all safety critical tasks.
- Keep the workspace clean and tidy and keep the tools and equipment in good working order.
- Ensure, together with all engineers, a variable & flexible work planning & work roster based on business continuity.
- Ensure maintenance is completed before due and within the appropriate time limits to protect the operational needs.
- Ensure, in cooperation with NHV Supply Chain and support services that the necessary maintenance material & spare parts are present on site at the planned moment.
- Ensure, based on pilot & other relevant information, daily problem analysis & problem solving.

Hoist Operations

· A combination of an Engineering position and a Helicopter Hoist Operator (HHO) position is a possibility but not a requirement. Refer to the job description HHO for more details.

Skills and Experience

Experience

- Minimum 5 years of relevant experience as a licensed engineer.
- Minimum 2 years of practical experience working on H175 aircraft type.
- Experience working in a line maintenance environment.
- Engineering experience in different aviation companies is a plus.

Skills

- EASA Part 66 B1.3 license or B2 license.
- Type rating H175 is required
- ICT literate (Rusada Envision knowledge is a plus)
- Languages: English (professional level)
- Good communicator:
 - Debriefing of the flight crew
 - Handover of work from/to previous/next shift
 - Communication with the maintenance lead
- Able to work independently when performing in a less controlled environment and able to take initiative to improve work and complete tasks within appropriate timeframe.
- Problem solver / logic thinking

What we offer

NHV Group is an international helicopter service provider, specialised in business-to-business helicopter services both offshore and onshore.

We aim to create a leading position in the helicopter world with a primary focus on Europe and Africa, without compromising our safety. We strive to provide an increasing level of flexibility to our customers. Our services and experience present a refreshing and safe alternative in the industry. NHV cares about its people and invests in them to shape the best professionals in the industry.

At NHV, we are dedicated to delivering excellence in the helicopter world. With a commitment to safety, innovation, and customer centricity, we provide reliable services that support a wide range of missions.

Our expertise spans across Oil and Gas, Offshore Wind, Maritime Services, MRO Services, ATO Pilot Training, and P147 Technician Training. We take pride in working with a skilled and passionate team who ensure everything meets the highest industry standards.

Joining NHV means becoming part of an innovative international aviation company that values motivation, enthusiasm, and dynamism. We prioritize our employees, supporting their well-being and growth with comprehensive, role-specific training. Our commitment to fostering a positive work environment includes organizing corporate events and encouraging innovative and critical thinking.
