

NHV Group – B1.3/B2 Engineer H145(M)

Job summary

Are you a licensed B1.3 or B2 Engineer with a passion for helicopter maintenance and operational excellence? Join NHV and use your technical expertise to help keep our aircraft safe, serviceable and ready for operation.

As a **B1.3/B2 Engineer H145(M)**, you will perform and certify maintenance, modifications and troubleshooting activities on our helicopter fleet. You will work in accordance with approved maintenance data, company procedures and applicable airworthiness regulations, contributing directly to the safety and availability of our aircraft.

Your key responsibilities include:

- Performing base maintenance and modifications on aircraft and components in accordance with work orders
- Troubleshooting technical issues based on pilot reports and system indications
- Ensuring all maintenance activities comply with approved maintenance data, the MOE and applicable airworthiness regulations
- Completing maintenance activities within the required timelines to support operational aircraft availability
- Certifying completed maintenance tasks and ensuring accurate documentation in the work pack
- Ensuring the correct handling, segregation and documentation of removed and installed components
- Reporting hazards and occurrences through the NHV reporting system
- Providing daily maintenance updates and ensuring effective briefings and debriefings with the Chief Engineer
- Certifying maintenance activities in accordance with applicable regulations
- Supporting line maintenance activities on an ad hoc basis
- Complying with NHV's Information Security Management System policies, procedures and controls

What you bring

You are an accurate and reliable maintenance professional with strong technical insight and a safety-first mindset. You can work independently, take initiative and remain flexible, while also collaborating effectively with colleagues across maintenance, CAMO, stores, flight operations and support services.

You bring:

- An **EASA Part-66 B1.3 or B2 licence**
- At least one aircraft type endorsement on your licence
- An H145(M) type endorsement is considered a strong advantage
- A UK Part-66 B1.3 licence is considered an advantage
- Demonstrated experience in base maintenance operations
- Strong knowledge of EASA regulations and aviation safety requirements

- Strong troubleshooting, problem-analysis and decision-making skills
- Accuracy, reliability and attention to detail
- A proactive and flexible approach to work
- The ability to work both independently and as part of a team
- Good communication skills, including for technical coordination and handovers
- Professional fluency in English, both written and spoken
- Knowledge of French or Dutch is considered an asset

What we offer

Join the Thrilling World of Aviation

Step into an exciting career in an international helicopter services company that combines a youthful spirit with over 25 years of industry expertise.

What We Offer
