

## NHV Group – B1.3 Engineer

### Job summary

Are you a licensed B1.3 Engineer with a passion for helicopter maintenance? Join our team and play a key role in ensuring our fleet remains safe, reliable, and operational.

As a B1.3 Engineer, you will be responsible for performing and certifying helicopter maintenance, modifications, and troubleshooting activities in accordance with approved maintenance data, company procedures, and airworthiness regulations. You will contribute directly to aircraft availability and operational readiness while maintaining the highest safety and quality standards. This role offers a combination of base and line maintenance activities and provides the opportunity to work independently while collaborating closely with colleagues across the organization.

### Responsibilities & areas

- Perform base maintenance, repairs, and modifications on helicopters and components in accordance with approved work orders.
- Diagnose and troubleshoot technical issues based on pilot reports and system indications.
- Ensure all maintenance activities are carried out in compliance with approved maintenance data, company procedures (MOE), and applicable airworthiness regulations.
- Deliver maintenance work within agreed timelines to support operational requirements and aircraft availability.
- Certify completed maintenance tasks and ensure accurate completion of maintenance documentation.
- Manage the proper handling, segregation, installation, removal, and documentation of aircraft components.
- Adhere to all safety requirements and proactively report hazards, incidents, and occurrences through the reporting system.
- Provide regular updates and maintenance status reports to the Chief Engineer, including daily briefings and debriefings.
- Certify B1.3 maintenance activities in accordance with regulatory requirements.
- Support line maintenance activities when required.
- Work autonomously in operational environments, demonstrate initiative, and contribute to continuous improvement within the maintenance team.
- Comply with Information Security Management System (ISMS) policies, procedures, and controls while supporting information security objectives.

### Skills & Experience

To be successful in this role, you have:

- A valid EASA Part-66 B1.3 License (UK Part-66 B1.3 License is an asset).
- At least one aircraft type endorsement on your license (Airbus helicopter type endorsement is an advantage).

- Proven experience in helicopter base maintenance operations.
- Strong knowledge of EASA regulations, airworthiness requirements, and aviation safety standards.

We are looking for someone who combines technical expertise with a proactive and team-oriented mindset.

You have:

- Strong communication skills and the ability to collaborate effectively with engineers, storekeepers, CAMO personnel, and other stakeholders.
- A high level of accuracy, attention to detail, and reliability.
- A flexible and solution-oriented approach to work.
- The ability to work both independently and as part of a team.
- The confidence to take initiative and perform effectively in dynamic operational environments.

#### Languages

- Fluent English (spoken and written).
- Knowledge of French, Dutch, and/or Spanish is considered an asset.

## What we offer

#### Join the Thrilling World of Aviation

Step into an exciting career in an international helicopter services company that combines a youthful spirit with over 25 years of industry expertise.

#### What We Offer

When you join our team, you can count on a **permanent (indefinite)** contract and a competitive salary package. Our benefits include:

- Meal vouchers
- Group and hospitalisation insurance
- Commuting reimbursement or bike allowance
- Eco vouchers and gift vouchers
- Travel & accommodation
- Access to the Benefits@Work platform on which you can find exclusive employee discounts and offers
- Training opportunities

You'll be part of a team of **40** colleagues, working in a roster of 2 weeks ON - 1 week OFF (or 3 weeks ON - 2 weeks OFF or 4 weeks ON - 3 weeks OFF) from Monday to Saturday.

#### Life at the Office

We believe in creating a positive and engaging work environment. Our in-house festivity committee keeps morale high with regular activities such as team quizzes, padel tournaments, "Break the Week" sessions, and winter BBQs.

If you're a certified B1.3 Engineer who thrives in a hands-on, fast-paced helicopter environment and takes pride in delivering safe, high-quality maintenance, we'd love to hear from you!
