

NHV Group – B2 Engineer - Lanvéoc

We're looking for an experienced B2 engineer to join our dedicated team at our base in Lanvéoc, France. You'll be part of a small but highly skilled and enthusiast team, committed to excellence.

Responsibilities & areas

- Perform base & line maintenance on aircraft and components as per work orders;
- Perform effective troubleshooting based on pilot reports and system indications;
- Ensure that all maintenance tasks are carried out, following all approved maintenance data, procedures (MOE), and airworthiness regulations;
- Ensure that all maintenance is completed within the appropriate time scales to have a serviceable aircraft that meets the operational need;
- Accurately certify completed tasks and ensure proper documentation in the work pack;
- Ensure proper handling, segregation, and documentation of removed/installed components;
- Adhere to safety standards; report hazards and occurrences via the NHV reporting system;
- Ensure briefing & debriefing of the Chief Engineer and/or Maintenance Lead; Report daily on the maintenance situation; Inform and update the CE/ML on the maintenance situation;
- Certify B2 category maintenance activities in accordance with the regulations;
- Work independently when performing in a less controlled environment and take initiative to improve work, show flexibility within the team to complete tasks within appropriate time scales.

Skills & Experience

At NHV, we are dedicated to deliver excellence in the helicopter world. With a commitment to safety, innovation, and customer centricity, we provide reliable services that support a wide range of missions. We expect you to be willing to contribute to this level of service and trust that you will bring the following competencies to strengthen the team:

- EASA Part 66 B2 License (upload copy when applying);
- AS365 N3 type rated;
- Good communication skills to work together with direct colleagues, store keepers, CAMO engineers, etc. and for handover work;
- Demonstrated experience in base and line maintenance operations;
- Strong understanding of EASA regulations and safety protocols;
- Accuracy and reliability;
- Flexibility;
- Easily combine working in a team and the ability to work independently.

Languages:

- English & French: fluent, professional level (speaking, reading, writing);

Only candidates who meet the legal right to live and work in France will be considered for this position.

What we offer

Step into an exciting career in an international helicopter services company that combines a youthful spirit with over 25 years of industry expertise.

When you join our team, you can count on a permanent (indefinite) contract and a competitive salary package, supplemented with meal & gift vouchers, etc.
