

NHV Group – Mechanic - Aberdeen

The Mechanic will work in a team and is responsible for the maintenance of the helicopters. They report to the Chief Engineer of the base.

NHV Group is an international helicopter service provider, specialised in business-to-business helicopter services both offshore & onshore.

We aim to create a leading position in the helicopter world with a primary focus on Europe and Africa, without compromising our safety. We strive to provide an increasing level of flexibility to our customers. Our services and experience present a refreshing and safe alternative in the industry. NHV cares about its people and invests in them to shape the best professionals in the industry.

At NHV, we are dedicated to delivering excellence in the helicopter world. With a commitment to safety, innovation, and customer centricity, we provide reliable services that support a wide range of missions.

Responsibilities

Line Maintenance

- Basic tasks in Line Maintenance, in compliance with the requirements as described in the regulations: refueling, towing, baggage loading and other line activities;
- Ensure that all these line maintenance tasks carried out to helicopters meet the standard of the UK CAA and M.O.E. instructions;
- Ensure that all maintenance is completed within the appropriate time scales to ensure provision of a serviceable aircraft to meet the operational need;
- Assist the licensed engineers in trouble shooting;
- Assist the licensed engineers in correct handling of maintenance tasks – final check to be done by the licensed engineers.
- Ensure, in cooperation with NHV Supply Chain, Store that the necessary maintenance material and spare parts are present on site at the planned moment: material in service car, consumables, limited service stock, work material, material needed for normal day-to-day line maintenance, exceptional material supplied for exceptional line maintenance or small repair tasks;
- Report daily to the licensed engineer on completion of tasks.

Base Maintenance

- Comply with the requirements as described in the regulations;
- Ensure that all maintenance tasks carried out to helicopters meet the standard of the UK CAA and M.O.E. instructions;
- Ensure that all maintenance is completed within the appropriate time scales to ensure provision of serviceable aircraft to meet the operational need;
- Ensure, in cooperation with NHV Supply Chain, Store & MCC that the necessary maintenance material & spare parts are present on site at the planned moment.

Skills and Experience

Experience

- Practical experience in maintenance in either line or base maintenance (preferably on helicopters) is a must

Skills

- ICT literate (specific aviation software & MS Office)
- Languages: English (professional level)
- Ability to follow company procedures and processes (operational, quality, safety ...)
- Easy in learning new procedures and processes: motivated to study to obtain the right experience and knowledge in helicopter maintenance

Solution finder but with eye for detail and taking into account all regulations and procedures
